This change is being made to revise the short application form used for pregnant women, Medicaid children and WV CHIP children.

The form has been sent to print, but will not be used until the current stock is depleted. No initial supply will be provided. Instead, when you order the form, you will receive whichever form is being stocked at that time. An advance copy was released to all Supervisors on 1/25/02.

Work is progressing on web-based applications. This new form will be one of the first ones available.
