

**1.14 DEEMED SSI RECIPIENTS**

Deemed SSI Recipients includes the following:

- Disabled Adult Children (DAC)
- Blind, Disabled - Substantial Gainful Activity (SGA)
- Essential Spouses of SSI Recipients
- Pass-Through
- Pickle Amendment Coverage (PAC)
- Disabled Widows and Widowers
- Drug Addicts and Alcoholics

No application is required for Deemed SSI Recipients. When SSI benefits are terminated, eligibility as a Deemed SSI Recipient must be evaluated. SDX codes indicate potential eligibility. The Need to Evaluate printout lists those who no longer qualify for an SSI payment and identifies those who may be Deemed SSI Recipients.

SGA's, Essential Spouses and Pass-Through's do not require a Worker determination. PAC cases require a financial determination by the Worker. Potential DAC's, Widows and Widowers, and Drug Addicts and Alcoholics are listed on the Need to Evaluate printout with the following Medicaid indicator codes:

Deemed SSI Group	SDX Code
Disabled Adult Children	D
Widows and Widowers	W
Drug Addicts and Alcoholics	P

When the Worker determines that the client is a Deemed SSI Recipient, he must enter the appropriate code. See the RAPIDS Use Guide.

PAC cases require a financial determination by the Worker, and the case must be redetermined each year in January for asset eligibility only. No data system coding is necessary for the redetermination. The redetermination forms are mailed automatically from the State Office.

No other Deemed SSI coverage group requires a scheduled redetermination.
