

7.14 SPECIFIC WV CHIP REQUIREMENTS

The information in this Section parallels the information in Chapter 16, which contains the requirements specific to Medicaid. Item A describes the criteria for WV CHIP children. Sections B and C describe the similarities and differences between requirements for WV CHIP and other Medicaid coverage groups.

A. REQUIREMENTS FOR WV CHIP CHILDREN

Income:	200% FPL	Assets: N/A
	No Spenddown Provision	

A child is eligible as a WV CHIP child, when all of the following conditions are met:

- The child is not yet age 19, regardless of school attendance or course completion date. Emancipation of the child, by marriage or other means, does not impact eligibility as long as the individual falls in the eligible age range. A child does not lose WV CHIP eligibility due to reaching age 19 until the end of the month in which he attains that age. A child who attains age 19 on the first day of the month retains eligibility until the end of that month.

NOTE: If a child is receiving inpatient services on the date he would lose eligibility due to reaching the maximum age, eligibility must continue until the child is discharged.

- Net family income, determined according to Section 7.10, is less than or equal to 200% FPL. See Appendix A of Chapter 10 for the maximum income limits.

NOTE: When a WV CHIP IG's net income exceeds 200% FPL, but the gross income is less than or equal to 300% FPL, the child is evaluated for WV CHIP Premium Expansion. See [WV CHIP Premium Expansion](#) below.

- The child is not an inmate of a public institution.
- The child is not a patient in an institution for mental diseases.
- The child meets the Medicaid citizenship and alienage requirements found in Chapter 18.

WV CHIP

NOTE: See [Good Cause for Terminating Non-Excepted Insurance Health Coverage – Worker’s Responsibility](#) below when the child is covered by a non-custodial parent’s insurance in another state or in a non-accessible geographic area in WV.

- Although a SSN must be provided for the WV CHIP child, approval is not delayed pending receipt of the number or verification of an application for one. Instead, when the applicant’s child does not have an SSN, the Worker approves the AG without one. The WV CHIP staff follows up with the family to make sure an SSN is obtained and notifies the Worker to add the number.
- Individual or group health insurance coverage for the child has not been voluntarily terminated, without good cause, in the month of application or in the 3-month period immediately preceding the month of application for WV CHIP or for WV CHIP Premium Expansion. See “Definitions” section in Appendix A.

Policy and procedures for determining good cause for terminating health insurance coverage are found in [Good Cause for Terminating Non-Excepted Insurance Health Coverage](#) below.

NOTE: Failure to accept available health insurance coverage does not affect WV CHIP eligibility, except for public employees who are receiving or eligible to enroll in a state health plan such as PEIA. This requirement applies only to persons who drop out of an existing program.

EXAMPLE: Mr. Hamilton works for Kroger and is eligible for individual or family health insurance coverage through his employer. He chooses not to enroll. Since he does not have access to a state health plan, his choice does not affect his children’s eligibility for WV CHIP.

A WV CHIP child must not be required to have an AFDC Medicaid deprivation factor or to live with a specified relative.

NOTE: When one child’s circumstances result in closure of the WV CHIP AG, other WV CHIP recipients, if otherwise eligible, continue to receive their 12-month period of continuous eligibility, unaffected.

B. MEDICAID REQUIREMENTS APPLICABLE TO WV CHIP

The policy listed below is the same for WV CHIP as for Qualified and Poverty-Level children.

Consideration for all Medicaid groups must be made prior to closure of WV CHIP.
See Section 16.3,[A](#)

C. MEDICAID REQUIREMENTS THAT ARE DIFFERENT FOR WV CHIP

The policies listed below do not apply to WV CHIP or there is a difference in application of the policy.

1. Special Drug Approval

This does not apply to WV CHIP.

2. Relationship With CSHCN

This does not apply to WV CHIP.

3. Assignment Of Medical Support Rights

There is no requirement for the family to assign medical support rights to the Department.

4. Certificate Of Coverage When WV CHIP Coverage Ends

The Worker is not required to issue an DFA-HIP-1 to the family. This is a responsibility of the WV CHIP staff.

5. Child Support Requirements

WV CHIP children are not referred to BCSE and are not required to pursue or accept child/spousal support as a condition of eligibility. However, the Worker must explain the availability of child support services. The RAPIDS automatic referral to BCSE is blocked for WV CHIP children.

6. Backdating Coverage

The policy which allows Medicaid coverage to be backdated up to 3 months prior to the date of application does not apply to WV CHIP benefits.

There are 4 situations which require the Worker to backdate WV CHIP coverage. These are as follows:

- Failure of the Worker to approve a complete application within 13 days of receipt and the delay results in a loss of coverage; or
- Failure of the Worker to request additional information in a timely manner and the delay results in a loss of coverage; or
- The client applies and/or establishes eligibility too late in the month for the Worker to approve coverage beginning the 1st of the following month; or
- The only Medicaid coverage group for which the child may be eligible requires that a spenddown be met. If the child does not meet his spenddown during the 30-day period for doing so, but is WV CHIP eligible, the beginning date of WV CHIP eligibility must be based on the date that all information necessary to establish WV CHIP eligibility was provided. See **Requirements for WV CHIP Children** above for more detail.

EXAMPLE: On March 10th a child's family applies for Medicaid. Based on the information provided, the family is not eligible for any Medicaid coverage group except AFDC-Related Medicaid. All verification and information to determine eligibility is provided by the client on March 15th.

There is a \$3,000 spenddown. By April 10th the family must provide paid or unpaid medical bills equal to or greater than \$3,000 to be Medicaid eligible. The parents provide \$2,345 in bills by April

10th and fail to establish Medicaid financial eligibility. However, the child meets the requirements for WV CHIP. Eligibility for WV CHIP begins March 1st, since all the verification and information needed to determine eligibility was provided on March 15th and the child met the WV CHIP eligibility requirements at that time.

NOTE: When approval is delayed due to Worker error and results in eligibility for backdated coverage, the client must be given the following options:

- Accept the backdated coverage for any period for which the child was eligible; or
- Begin the coverage at a later time, if there are not incurred medical expenses for the past period.

Once an option is chosen and the AG is approved, the beginning date of eligibility cannot be changed.

EXAMPLE: A client applies for WV CHIP for her children. Her application is received in the local office on September 4th and placed in the client's file instead of being processed. The client calls on October 20th to check the status of her application. On October 21st, the application, date stamped September 4th, is found in the file and processed. The client has the option of accepting 12 months of coverage beginning in either September, October, or November. Since the children incurred no medical expenses for September, she chooses to begin coverage in October. The 12 months of coverage begins in October and ends in September of the following year. After approval, the 12 month eligibility period cannot be changed.

7. Relationship Between WV CHIP And Medicaid Coverage Groups

All Medicaid coverage groups are classified as either Categorically Needy or Medically Needy. See Section 16.4. WV CHIP is not Categorically Needy or Medically Needy because the coverage is not provided under Medicaid.

8. Long Term Care

If the child requires long-term care services, and qualifies for ICF/MR, HCB Waiver, CDCS, or I/DD Waiver coverage groups, the child is Medicaid eligible and the caretaker must be notified.

WV CHIP

- Determine by the steps outlined in **Procedure for Determining if the Criteria is Met** below if the family's annual health insurance premium cost equals or exceeds 10% of the family's gross non-excluded annual income.
- Inform the client in writing when he meets WV CHIP requirements except for having the non-excepted health insurance coverage.
- Inform the client that WV CHIP coverage continues for 12 months and that if the family income increases there is a possibility the child may not be eligible at redetermination.
- Advise the client that it is his decision whether or not to drop the health insurance for WV CHIP and that WV CHIP coverage begins only after the health insurance coverage ends.

3. Excessive Cost Of Family Coverage

Good cause for terminating non-excepted health insurance coverage exists when the annual cost of the family coverage is 10% or more of the family's total gross non-excluded annual income. The total cost of family coverage includes basic coverage and any optional dental or optical coverage, even when paid separately from the basic coverage. When a good cause determination is made due to premium cost exceeding 10% of the family's gross income, special application processing procedures may apply. See Section 7.2.

a. Definition of Family

NOTE: This definition is only applied to this good cause determination.

The family includes:

- The child, only;

EXAMPLE: Mr. Lytle had health coverage for himself and his son Samuel, through his state health plan. Mr. Lytle passed away. Even though Mr. Lytle's health insurance coverage ended, his employment relationship allows health coverage to be available for a limited number of months for Samuel through COBRA. Samuel has unearned income. His aunt applies for WV CHIP. Samuel is considered a family of one and only his annual gross income and annual cost of health insurance coverage is considered in

WV CHIP

c. Follow-up Action

When the Worker is notified by WV CHIP staff that the insurance is geographically accessible, the potential for other good cause criteria is explored. If none of the good cause criteria is appropriate, the application is denied due to the child's having non-excepted health insurance coverage.

When the Worker is notified by WV CHIP staff that the insurance is geographically non-accessible, follow-up action depends on the state of residence of the non-custodial parent who is providing the coverage.

If the non-custodial parent is a WV resident, the Worker must notify the family that the sole reason for ineligibility is the non-excepted health insurance. The Worker must explain the coverage and allow the client to make a decision about the option. See **Worker's Responsibilities** above. If the client terminates the coverage, there is no 3-month waiting period for establishing WV CHIP or WV CHIP Premium Expansion eligibility.

If the non-custodial parent resides outside of WV, the child may receive both WV CHIP and the other health insurance coverage as long as it is non-accessible.

5. Other Good Cause Criteria

Other factors that are considered to be good cause for the termination of health insurance coverage are as follows:

- The employer terminates health insurance coverage.
- Health insurance coverage stops when the job is terminated by the employer.
- Loss of coverage for the child is due to a change in employment.

WV CHIP

- Loss of coverage was outside the control of the employee.
- A determination of good cause is made by the legal representatives of the Department of Administration. Referral for consideration is made automatically by the Hearings Officer after a negative Fair Hearing decision for the client.

E. WV CHIP Premium Expansion

House Bill 4021 established the WV CHIP Premium Expansion coverage group to expand the WV CHIP income levels to 220% of the Federal Poverty Level (FPL) effective January 1, 2007. Effective January 1, 2009, the WV CHIP Premium Expansion coverage group was further expanded to include gross income levels less than or equal to 250% and effective July 1, 2011 to include gross income levels less than or equal to 300% FPL.

1. Worker Action Required / Client Notification

When the WV CHIP application is denied solely for net income in excess of 200% FPL the child is evaluated for WV CHIP Premium Expansion. The data system totals the gross earned income and the gross unearned income of the IG and compares the result against the gross test in the last column in Appendix C. If the IG's total gross income exceeds 300% FPL, the applicant is denied. If the gross income test is met with gross income less than or equal to 300% FPL, income disregards or deductions are applied. See Section 7.10. RAPIDS sends a report to WV CHIP staff to evaluate applicants for WV CHIP Expansion when the IG has total gross income less than or equal to 300% FPL but with net income in excess of 200% FPL.

NOTE: Verification of income is not required when the client states his income exceeds 300% FPL.

2. Premium Payment

The premium amount is based on the number of children approved for WV CHIP Premium Expansion coverage. The premium amount for one child is \$35 per month. The premium amount for two or more children is \$71 per month.
