

2.13 SSI-RELATED/NON-CASH ASSISTANCE**A. CHANGES REQUIRING RE-EVALUATION**

Case maintenance action is required to update the data system when a Medicaid AG has a change of income. When a change in income or assets is reported, eligibility for the AG must be re-evaluated. Changes include the onset or termination of income, as well as income increases and decreases. Proper notice is required for any adverse action and the AG must be evaluated for all other coverage groups.

B. MRT REQUIREMENTS

An incapacitated, disabled, or blind person may require a MRT re-evaluation. See Chapter 12.

C. CLOSURES

When the client fails to meet any eligibility requirement, the AG is closed.
