

8. Transportation

- Payments are made to a client who is beginning to participate in an activity to assure that transportation is not a barrier. A prepayment for travel requires an estimate of the daily mileage for two weeks. **Prepayments must be deducted from subsequent transportation payments requested.**
- Transportation payments may be authorized only if expenses have been incurred or are reasonably expected to be incurred.
- Payments made for private transportation are intended to cover more than the cost of fuel. Daily payments for travel include a portion of the following expenses: fuel, insurance, vehicle maintenance, minor repairs and parking.
- General limitations, in addition to those in item B above, are as follows. Limitations specific to an activity are shown in the chart below.
- Clients who must travel one mile or less to their place of employment or other participation site are not eligible for payment. In making this determination, consideration must be given to the distance traveled to deliver children to day care.
- Those who ride school buses or other conveyances without cost are not eligible for transportation payments for the days such conveyances are used.
- Those who use public transportation are reimbursed for the actual cost of the service.
- **Transportation stipends received from another source must be deducted from any transportation payments requested.**
- When clients share private transportation, only the owner of the vehicle is entitled to a payment. However, if the owner of the vehicle charges the other passengers, the passengers may be reimbursed for their charges. Members of the owner's AG may not be reimbursed when traveling in the same vehicle.
- A BA-67 is not required for transportation payments made to a vendor.
- **Requests for transportation received more than 3 months past the month of participation are ineligible. Requests for exceptions due to extenuating circumstances may be sent to the Family Support Policy Unit for consideration.**
