Subject: COVID-19 Resources on the WV Birth to Three Website
Importance: High

Dear WV Birth to Three Practitioners,

As we continue to face the challenges of the COVID-19 pandemic, the WV Birth to Three State Office would like to thank our practitioners for your continued dedication to West Virginia's infants/toddlers with developmental delay and their families. We know the transition to video conferencing has not been easy as you have had to learn the technology and move into the role of a virtual family coach. For many of you, you are also home-schooling children or caring for other family members as well. You are amazing and much appreciated!!!

WV Birth to Three has posted a variety of resources on the WVBTT website to provide you and the families you serve with information on COVID-19, tips for video conferencing, evidence based practices for supporting children and families during this event and how to access community resources.

To find these resources, please go to the WV Birth to Three home page and click on either the posting that says, "**Corona Virus Disease 2019 COVID-19**" OR "**WVBTT Family Q and A Corona Virus/COVID-19.**" Both posts will direct you to the same information.

You can also copy and paste this URL into your internet browser:

http://www.wvdhhr.org/birth23/covid19_resources.asp

We hope these resources will be of great support to you. As we identify new resources, we will update this link and send out reminders of new postings.

Once again, thank you for all that you do to support our WV Birth to Three families as we all work to slow the spread of COVID-19 in our state.

The WV Birth to Three State Staff
