Subject: COVID-19 Next Steps

Importance: High

First of all - we want to thank all of you for the excellent service you are providing to families! We know that families greatly appreciate this too!

Beginning July 1, 2020, WV Birth to Three will offer options to families for receiving early intervention services. The decision to offer any services via face to face is a difficult one. It is impossible to know when someone may have been exposed to or have COVID-19 as some people may not display symptoms.

WVBTT understands that some families may not want to receive services in their home. Additionally, some professionals have health concerns or have family members with health issues and may not be available to provide face to face services.

We know that everyone must take precautions to protect children, families and professionals from this virus.

The following sessions are provided by the WV Birth to Three State Office to inform Service Coordinators and Direct Service Practitioners of the steps to be taken and your roles and responsibilities as WVBTT begins to offer families a choice of how they want to receive their services.

You can copy and paste the links below to register. We are also posting a flyer with the dates/times of the webinars on our WVBTT website. If you have pertinent questions, please email those questions to Pam.S.Roush@wv.gov prior to the webinar.

Thank you and we look forward to talking with you during the webinars!

WV Birth to Three COVID-19 Next Steps (2.0 Contact Hours)
