Subject: Family Guided Routines Based Interventions (FGRBI) Self-Paced Course

To:

Dear Practitioners and Service Coordinators,

WV Birth to Three is pleased to announce the Family Guided Routines Based Interventions (FGRBI) self- paced course will be offered monthly beginning in January.

FGRBI is an approach for providing early intervention services within a child and family's natural environment. With roots in activity- based intervention, FRBI focused on parent-implemented interventions for children ages birth to three. FGRBI practices shift the role of practitioners to coaching families to embed interventions into their daily interactions with their child.

This self-paced course will begin on the 1st of each month. Once enrolled you are expected to complete all content within 30 calendar days.

Once you complete the course, you will have the opportunity to sign up for the FGBRI Communities of Practice Courses to enhance implementation of these evidence-based practices and your family coaching.

WV STARS and professional CEU's are available for a variety of disciplines.

To learn more and how to enroll, please copy and paste this URL into your internet browser:
