

"What Parents and Caregivers Need to Know About Low Vision"

(For Parents, Teachers of the Visually Impaired, WV Birth to Three practitioners and INSITE parent educators)

This presentation will discuss the definition and causes of low vision in infants and toddlers. Vision development, testing methods, qualifications and appropriate referrals will also be discussed.

Participants will learn of the effects that low vision has on learning and view the latest technology that is available to assist children as they enter into the public school environment.

This presentation will not discuss Cortical Visual Impairment (CVI) or total blindness.

Presenter: *Mr. Dan Oates*
Coordinator for Outreach Services
Insight Program
West Virginia Schools for the Deaf and Blind
