

Child outcomes are based on the changes the family/caregiver wants to see in the child's ability to successfully participate in the daily activities and routines that are important to them. **(Use additional pages as needed.)**

Outcome #	What routine or activity will be the focus for this child outcome?		
Functional Outcome Statement (What we can accomplish in the next six months related to this routine or activity?)			
Who		Will (do what)	
Under what conditions		In order to or so that	
We will know this outcome has been achieved when:			
What activities/strategies will the caregiver do with their child between visits to achieve this outcome? (Strategies may change over time as needed.)			
How will the caregiver be coached to learn these strategies?			
<div style="display: flex; justify-content: space-between;"><div><input type="checkbox"/> Practitioner will model recommended strategies. <input type="checkbox"/> Practitioner will support the caregiver through guided practice with recommended strategies. <input type="checkbox"/> Practitioner will design and teach caregiver how to collect data, when appropriate. <input type="checkbox"/> Practitioner will observe child/caregiver within the routine and provide feedback on use of recommended strategies.</div><div><input type="checkbox"/> Practitioner will provide written materials and answer questions, when appropriate.</div></div>			
How will the team measure progress (observable actions and behaviors)?			
<input type="checkbox"/> Intervention Activity notes	<input type="checkbox"/> Data Gathering	<input type="checkbox"/> Service Coordinator Activity Note	<input type="checkbox"/> Parent/Caregiver Report
<input type="checkbox"/> Ongoing Team Communication	<input type="checkbox"/> Other – Describe”
