**Subject:** [External] Visit Policy - WVBTT

**Importance:** High

**CAUTION: External email. Do not click links or open attachments unless you verify sender.**

Hello everyone,

I need to remind all enrolled professionals of WV Birth to Three policies regarding payment for early intervention visits. The ONLY time that WVBTT services could be reimbursed to more than one professional at the same time is during Evaluation/Assessment.

I have heard that there are some folks doing joint visits and ignoring WVBTT policy. PLEASE note, joint visits are not reimbursable through WVBTT (unless you have specific permission from WVBTT due to safety issues).

So, if you are making joint visits and billing for those to WVBTT, that is illegal and will be identified and you will repay those amounts.

I know that most people are surely not doing this, but if there are some, please note and make a change to how you do your visits.

Thank you.

Pam
