For Immediate Release

DHHR Medicaid Program honored at CMS Conference

The State of West Virginia was recently honored for high performance in providing access to dental care for children enrolled in Medicaid and for reporting and data accuracy related to dental information last month at a national Medicaid conference dealing with quality.

Medicaid was also recognized for outstanding leadership and for serving as a model to other states.

The CMS Oral Health Initiative is a program with the goals of improving by ten percentage points by 2015 the proportion of children enrolled in Medicaid and CHIP who receive a preventive dental service. More information about the Oral Health Initiative is available here: <http://www.medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Quality-of-Care/Downloads/CMS-Oral-Health-Strategy.pdf>.
