Penn Medicine

Reproductive Health Update

This program will acquaint staff with the most current developments in the clinical practice of reproductive health.

By the end of this course participants will be able to:

- ◇ Explain risks associated with different forms of contraceptives based upon typical use
- ◇ Identify and manage common genital dermatologic conditions in women, specifically the dermatology of the vulva including pigment changes
- ◇ Discuss the etonogestrel subdermal implant as a contraceptive option
- ◇ Compare the two types of IUDs

Who should attend this event?

Staff who provide clinical family planning services in the West Virginia Family Planning Program.

About The Faculty:

Wendy Grube, RNC, MSN, CRNP

Ms. Grube provides comprehensive reproductive health care in a variety of settings, specializing in gynecologic oncology. She has written and presented nationally on women's health care topics. Ms. Grube is faculty and lecturer at University of Pennsylvania Women's Health Care Nurse Practitioner Program and has been designated as an Educator on HPV and the new HPV vaccine by the American Society for Colposcopy and Cervical Pathology.
