

JANUARY IS CERVICAL CANCER SCREENING MONTH

You Can Prevent Cervical Cancer

1. VACCINATE EARLY
2. PAP TEST REGULARLY
3. HPV TEST WHEN RECOMMENDED BY A HEALTH CARE PROVIDER

For more information on the Gynecologic Cancer Foundation's National Cervical Cancer Public Education Campaign, visit www.cervicalcancercampaign.org or call 312.578.1439.

Patient education programs of the National Cervical Cancer Public Education Campaign are supported in part through unrestricted educational grants from Dytc LP Corporation, GlaxoSmithKline and Merck & Co., Inc.
