FORM 1-A  Conditional Employee and Food Employee Interview

Preventing Transmission of Diseases through Food by Infected Food Employees or Conditional Employees with Emphasis on Illness due to Norovirus, Salmonella Typhi (S. Typhi), Shigella spp., ShigaToxin-producing Escherichia coli (STEC), nontyphoidal Salmonella or Hepatitis A Virus

The purpose of this interview is to inform conditional employees and food employees to advise the person in charge of past and current conditions described so that the person in charge can take appropriate steps to preclude the transmission of foodborne illness.

Conditional Employee Name (print) __________________________________________________________
Food Employee Name (print)  ________________________________________________________________
Address ________________________________________________________________________________
Telephone Daytime:________________________________________ Evening: ________________________
Date ____________________________________________

Are you suffering from any of the following symptoms?  (Circle one)  If YES, Date of Onset

Diarrhea? YES / NO __________________
Vomiting? YES / NO __________________
Jaundice? YES / NO __________________
Sore throat with fever? YES / NO __________________

Or

Infected cut or wound that is open and draining, or lesions containing pus on the hand, wrist, an exposed body part, or other body part and the cut, wound, or lesion not properly covered? YES / NO

(Examples: boils and infected wounds, however small)

In the Past:

Have you ever been diagnosed as being ill with typhoid fever (S.Typhi) YES / NO
If you have, what was the date of the diagnosis? __________________
If within the past 3 months, did you take antibiotics for S. Typhi? YES / NO
If so, how many days did you take the antibiotics? _________________
If you took antibiotics, did you finish the prescription? _____________ YES / NO

History of Exposure:

1. Have you been suspected of causing, or have you been exposed to, a confirmed foodborne disease outbreak recently? YES / NO
If YES, date of outbreak: ________________________________________

   a. If YES, what was the cause of the illness and did it meet the following criteria?
     Cause:
     i. Norovirus (last exposure within the past 48 hours) Date of illness outbreak _________
     ii. E. coli O157:H7 infection (last exposure within the past 3 days) Date of illness outbreak _________
     iii. Hepatitis A virus (last exposure within the past 30 days) Date of illness outbreak _________
     iv. Typhoid fever (last exposure within the past 14 days) Date of illness outbreak _________
     v. Shigellosis (last exposure within the past 3 days) Date of illness outbreak _________
b. If YES, did you:
   i. Consume food implicated in the outbreak? _____________________________________________
   ii. Work in a food establishment that was the source of the outbreak? _________________________
   iii. Consume food at an event that was prepared by person who is ill? _________________________

2. Did you attend an event or work in a setting, recently where there was a confirmed disease outbreak? YES / NO

   If so, what was the cause of the confirmed disease outbreak? _________________________________

   If the cause was one of the following five pathogens, did exposure to the pathogen meet the following criteria?

   a. Norovirus (last exposure within the past 48 hours) YES / NO
   b. E. coli O157:H7 (or other STEC (last exposure within the past 3 days) YES / NO
   c. Shigella spp. (last exposure within the past 3 days) YES / NO
   d. S. Typhi (last exposure within the past 14 days) YES / NO
   e. Hepatitis A virus (last exposure within the past 30 days) YES / NO

   Do you live in the same household as a person diagnosed with Norovirus, shigellosis, typhoid fever, hepatitis A, or illness due to E. coli O157:H7 or other STEC? YES / NO Date of onset of illness __________

3. Do you have a household member attending or working in a setting where there is a confirmed disease outbreak of Norovirus, typhoid fever, shigellosis, STEC infection, or hepatitis A? YES / NO Date of onset of illness __________

Name, Address, and Telephone Number of your Health Practitioner or doctor:
Name ____________________________________________
Address ___________________________________________

Signature of Conditional Employee ______________________________________ Date __________

Signature of Food Employee ___________________________________________ Date __________

Signature of Permit Holder or Representative _______________________________ Date __________
Conditional Employee or Food Employee Reporting Agreement

Preventing Transmission of Diseases through Food by Infected Conditional Employees or Food Employees with Emphasis on Illness due to Norovirus, *Salmonella Typhi*, *Shigella* spp., or Shiga toxin-producing *Escherichia coli* (STEC), nontyphoidal *Salmonella* or Hepatitis A Virus

The purpose of this agreement is to inform conditional employees or food employees of their responsibility to notify the person in charge when they experience any of the conditions listed so that the person in charge can take appropriate steps to preclude the transmission of foodborne illness.

I AGREE TO REPORT TO THE PERSON IN CHARGE:

Any Onset of the Following Symptoms, Either While at Work or Outside of Work, Including the Date of Onset:

1. Diarrhea
2. Vomiting
3. Jaundice
4. Sore throat with fever
5. Infected cuts or wounds, or lesions containing pus on the hand, wrist, an exposed body part, or other body part and the cuts, wounds, or lesions are not properly covered (such as boils and infected wounds, however small)

Future Medical Diagnosis:

Whenever diagnosed as being ill with Norovirus, typhoid fever (*Salmonella Typhi*), shigellosis (*Shigella* spp. infection), *Escherichia coli* O157:H7 or other STEC infection, nontyphoidal *Salmonella* or hepatitis A (hepatitis A virus infection)

Future Exposure to Foodborne Pathogens:

1. Exposure to or suspicion of causing any confirmed disease outbreak of Norovirus, typhoid fever, shigellosis, *E. coli* O157:H7 or other STEC infection, or hepatitis A.
2. A household member diagnosed with Norovirus, typhoid fever, shigellosis, illness due to STEC, or hepatitis A.
3. A household member attending or working in a setting experiencing a confirmed disease outbreak of Norovirus, typhoid fever, shigellosis, *E. coli* O157:H7 or other STEC infection, or hepatitis A.

I have read (or had explained to me) and understand the requirements concerning my responsibilities under the Food Code and this agreement to comply with:

1. Reporting requirements specified above involving symptoms, diagnoses, and exposure specified;
2. Work restrictions or exclusions that are imposed upon me; and
3. Good hygienic practices.

I understand that failure to comply with the terms of this agreement could lead to action by the food establishment or the food regulatory authority that may jeopardize my employment and may involve legal action against me.

Conditional Employee Name (please print) _____________________________________________________

Signature of Conditional Employee _________________________________________ Date ___________

Food Employee Name (please print) __________________________________________________________

Signature of Food Employee ______________________________________________ Date ___________

Signature of Permit Holder or Representative ________________________________ Date ___________
The Food Code specifies, under Part 2-2 Employee Health Subpart 2-201 Disease or Medical Condition, that Conditional Employees and Food Employees obtain medical clearance from a health practitioner licensed to practice medicine, unless the Food Employees have complied with the provisions specified as an alternative to providing medical documentation, whenever the individual:

1. Is chronically suffering from a symptom such as diarrhea; or
2. Has a current illness involving Norovirus, typhoid fever (Salmonella Typhi), shigellosis (Shigella spp.), E. coli O157:H7 infection (or other STEC), nontyphoidal Salmonella or hepatitis A virus (hepatitis A), or
3. Reports past illness involving typhoid fever (S. Typhi) within the past three months (while salmonellosis is fairly common in U.S., typhoid fever, caused by infection with S. Typhi, is rare).

Conditional Employee being referred: (Name, please print) __________________________________________

Food Employee being referred: (Name, please print) _________________________________________________________

4. Is the employee assigned to a food establishment that serves a population that meets the Food Code definition of a highly susceptible population such as a day care center with preschool-age children, a hospital kitchen with immunocompromised persons, or an assisted living facility or nursing home with older adults? YES ☐ NO ☐

Reason for Medical Referral: The reason for this referral is checked below:

☐ Is chronically suffering from vomiting or diarrhea; or (specify) ________________________________

☐ Diagnosed or suspected Norovirus, typhoid fever, shigellosis, E. coli O157:H7 (or other STEC) infection, nontyphoidal Salmonella or hepatitis A. (Specify)

☐ Reported past illness from typhoid fever within the past 3 months. (Date of illness) __________________________

☐ Other medical condition of concern per the following description: ________________________________

Health Practitioner’s Conclusion: (Circle the appropriate one; refer to reverse side of form)

☐ Food employee is free of Norovirus infection, typhoid fever (S. Typhi infection), Shigella spp. infection, E. coli O157:H7 (or other STEC infection), nontyphoidal Salmonella infection or hepatitis A virus infection, and may work as a food employee without restrictions.

☐ Food employee is an asymptomatic shedder of E. coli O157:H7 (or other STEC), Shigella spp., or Norovirus, and is restricted from working with exposed food; clean equipment, utensils, and linens; and unwrapped single-service and single-use articles in food establishments that do not serve highly susceptible populations.

☐ Food employee is not ill but continues as an asymptomatic shedder of E. coli O157:H7 (or other STEC), Shigella spp. and should be excluded from food establishments that serve highly susceptible populations such as those who are preschool-age, immunocompromised, or older adults and in a facility that provides preschool custodial care, health care, or assisted living.

☐ Food employee is an asymptomatic shedder of hepatitis A virus and should be excluded from working in a food establishment until medically cleared.

☐ Food employee is an asymptomatic shedder of Norovirus and should be excluded from working in a food establishment until medically cleared, or for at least 24 hours from the date of the diagnosis.

☐ Food employee is suffering from Norovirus, typhoid fever, shigellosis, E. coli O157:H7 (or other STEC infection), or hepatitis A and should be excluded from working in a food establishment.

☐ Food employee is diagnosed with an infection from nontyphoidal Salmonella and is asymptomatic and
should be restricted from working in food establishments serving a highly susceptible population and food establishments not serving a highly susceptible population.

COMMENTS: (In accordance with Title I of the Americans with Disabilities Act (ADA) and to provide only the information necessary to assist the food establishment operator in preventing foodborne disease transmission, please confine comments to explaining your conclusion and estimating when the employee may be reinstated.)
