RWF Fundamentals
Introduction to Recreational Water Facilities

Daniel McNeil, R.S. – Wheeling District Sanitarian
Sanitarian Training Class
Upon completion of this lesson you will:

• Have an overview of the different types of facilities you will encounter.
What is a Recreational Water Facility?

A body of water, under the control of a person, which has been modified, improved, constructed or installed for the purpose of public swimming or bathing.

- Intended for swimming or bathing
- Water is re-used
- Water is re-circulated (except Bathing Beach)
What is Public?

• Public: Any member of the public can use the facility. Admission may or may not be charged.

• Semi-Public: Use of the facility is restricted to members or guests of the facility. Includes hotels, apartments, gyms, health care, water parks, universities, etc.
