Hearing Impaired

Members of the West Virginia Association for the Deaf, Inc. (WVAD) have donated various models of Closed Captioning devices (CC) to be distributed as necessary for the enjoyment and educational purpose of the deaf or hard of hearing individual it is given to. This device is to be kept, maintained and cared for by the named person below. The WVAD will not be responsible for any maintenance, such as repairs, damage or any problems caused by the CC device. Once it is donated to the named person, it becomes their property and responsibility, not WVAD's.

Criteria for the donating of a CC device are the person is deaf or hard of hearing and shows a financial burden if purchasing the device themselves. A financial burden can be accepted by someone's word and trust that they are aware of the family and their financial situation. They must also sign this form, at the space provided.
