

BONNIE WELLS WILSON MOBILE MAMMOGRAPHY PROGRAM

Bonnie's Bus is a mobile mammography unit that travels across West Virginia, offering breast cancer screening in a comfortable, convenient environment. The Bus serves women who have private insurance, Medicaid, Medicare, as well as under- or un-insured women who qualify for the West Virginia Breast and Cervical Cancer Screening Program. Grant funds and donations are available to pay for women without coverage so that no woman age 40 or over is ever turned away. Since 2009, Bonnie's Bus has provided over 17,900 mammograms and detected at least 80 cases of breast cancer.
