

Do you know when to consider

Neuromuscular Disorders Like Duchenne Muscular Dystrophy (DMD)?

Sarepta Therapeutics invites you to a 1-hour educational **webinar** focused on the early signs and symptoms of DMD. Knowing these signs can lead to more **timely and accurate identification** of DMD, potentially impacting families and patient care.

Would you be able to detect the signs?

Presented by

Amy Harper, MD

Director of the Pediatric Neuromuscular Clinic
Children's Hospital of Richmond
Richmond, VA
