

HELPING PARENTS PREVENT AND MANAGE CHILDREN'S CHALLENGING BEHAVIOR

Join Our Live Webinar!

Toddlers are learning and growing every day, and sometimes that means big behaviors show up. This session will talk about common situations that can be tough for little ones—like moving from one activity to another, being told “no,” waiting their turn, or feeling bothered by sounds, textures, or other experiences.

We'll share:

- Why these behaviors happen
- Simple strategies to prevent meltdowns
- Ways to help children build coping skills
- Tips for what to do in the moment when behaviors occur
