

## What is Sensory Processing 101?

This live webinar is designed to help parents understand how the brain takes in and responds to sensory input like sights, smells and touches and why that process can sometimes feel overwhelming for some children.

Kathy Quesenberry, Occupational Therapist with WV Birth to Three, will be our presenter.

**Wednesday, November 11**  
**12:00 p.m. – 1:00 p.m.**

**1 Contact Hour**
