

# CALLING ALL EI PRACTITIONERS AND LEADERS!

INPUT REQUESTED - PARTICIPATION VOLUNTARY

We are conducting a survey to learn about the current level of knowledge in early intervention about how to support substance-exposed infants, including infants with Neonatal Abstinence Syndrome (NAS), and their families. This survey is intended for local system managers, supervisors, and EI practitioners, such as direct service providers and service coordinators.

We hope to learn about knowledge and strategies used by practitioners, as well as understand the gaps in knowledge or skill from their perspectives.

QUESTIONS? EMAIL CHRISTINE SPENCE AT  
SPENCECM@VCU.EDU
