there were many youth in out of home congregate care with mental health conditions; a full continuum of community-based services and supports; and a service delivery model that is evidence-based and/or practices that has been proven to improve outcomes and incorporates System of Care values and principles.

Several factors have contributed to the need for child welfare reform. These include the increase in substance abuse trends since 2001; increase in children entering care; workforce insufficiencies; and no substantial increase in resources.

The current strategies include: a reduction of Out of Home congregate care due to: increase in Safe at Home referrals; increase in kinship/relative care; reduction in parental placements to Psychiatric Residential Treatment Facilities (PRTFs); reduction in out-of-state facilities; HealthCheck Program; and an increase in community mental health resources.

DHHR is proposing that Child Welfare Reform include the following objectives:

Objective 1: Increase Foster Family Care Homes

- Establish Emergency Homes
- Increase in the per-diem for the family
- Increase recruitment efforts statewide

Objective 2: Recruit and Retain CPS Workers Statewide

- One-time recruitment bonus
- Job fairs
- Retention bonus (2 and 5 years)
- Streamline New Worker Training
- Develop a mentoring program for new workers and supervisors
- Develop new CPS job classifications

Objective 3: Expand Treatment Options for Substance Abuse Disorders

- Implement the SUD Waiver
- Expand Neonatal Abstinence Syndrome centers
- Expand Drug-Free Moms and Babies Sites

Objective 4: Implement Health Management Strategies for Children in Foster Care or Adoptive Care

- Develop a plan to place children in foster and adoptive care into a managed care environment
- Develop a plan to ensure there is an electronic record for each child in foster care

Objective 5: Increase the Availability of at Least Five Community-based Services (Programs/Services Not Statewide)

- Expand Safe at Home (parental and child welfare)
- Increase the number of families receiving home visitation
- Evaluate and expand School Mental Health Services
- Evaluate expansion of existing juvenile diversion programs (inter-cept,
